CLOCK... GUARANTEED TO WAKE YOU

OR MONEY BACK**

Never over-sleep again . . . never miss another plane . . . never miss another appointment . . . never have to offer another "boss, I'm sorry" excuse. J. P. DARBY 88A NEW HYDE PARK, NEW YORK 11040

By executive command, the troops were deployed to scour every nook and cranny of the world for the most unusual gifts to be found anywhere. After maneuvers they reported back to headquarters with the most extensive collection of gift items ever presented within the pages of one catalog. An outstanding assortment of curiosities, whimsicalities, antiques, luxuries, necessities, grotesqueries, oddities, exoticisms, incongruities—and we could go on and on. Our Commanding Officer commended them for a job well done and now, with pride, we offer this selection to you.

So wade in straight out! Grasp this volume firmly in your hand, settle comfortably back in your loungechair and get set for the pleasure of instant gift selection with finger-tip control.

As always, full purchase price refunded immediately if you're not completely satisfied (except on personalized items, of course!)

Beautifully restored Antique Greek Pistols used in the early and mid 1800's in Greece, Turkey, Macedonia and surrounding Adriatic countries for dueling and protection against banditos and other perils of the day. The original scattered parts from every nook and cranny of southeast Europe were painstakingly gathered and adeptly reassembled by gunsmiths with knowledge of ancient weaponry passed down through the ages. The old mechanism is in its original state but some new parts have been added. We were successful in purchasing a representative—though limited—selection in order to make this offer to you. As no two are alike—we cannot give you details but we know you will be delighted. They vary—some flintlock, some percussion cap. Barrels range from brass, pewter, silver, bronze to steel. Many are engraved with date, gunsmith make, city of origin or the like. All have working parts and are muzzle loaders. They are really a gun fancier's collection treasure-find—and we know we cannot reorder—they're no longer obtainable.

And we know, we cannot reorder—they're no longer obtainable. In this collection are a few classic "brace of dueling pistols." Not many but enough to mention. These are available on a first-come first-served basis. Only \$44.98 a pair.

You can also trigger the switch with your finger, walk away to line up your putt — and it will be in action without you anywhere near it. CRAZY!! Guaranteed to reduce your score but —

WORLD'S SMALLEST RAZOR CARRY A CLEAN SHAVE ON YOUR KEY RING

NO LATHER OR ELECTRIC CORDS,
NO BATTERIES OR SPRINGS

For that shave away from home, keep a Roller Mini-Shaver in your desk, glove compartment, or even in your pocket! Its smaller than a book of matches—1¼" x 1½" x ⅜"—yet it cleans those whiskers off.

Works like an electric razor in reverse! Instead of a moving blade under a stationary comb, blade is fixed, and shaving comb rolls as you move razor across face. Whiskers slip through holes, are snipped off by blade. The harder you press the closer you shave, BUT BLADE NEVER TOUCHES YOUR SKIN!

High-luster chrome finish. Comes in a gift box with removable key ring attached. Stainless steel blades (extra blades readily available). A sure cure for 5 o'clock shadow—anywhere.

A lost art found again... UNIQUE BATIK

Batik, an art almost buried with the centuries is in full bloom again in all its glory. Artists in this medium are traced back over 1200 years to Indian and Indonesian origin. It is a hand method of painting ingenious original creations on fine loomed Indian linen employing beeswax and then dyeing with deep rich exciting Indian dye tones that never fade. Each arduous skilled process is done strictly by hand and it is impossible to duplicate any one of the finished works of art. Batik paintings, when framed, become the focal point of any room. The motif is repeated on the reverse and when illuminated from behind a fantastic effect is achieved. Size 20" x 29".

THE WORLD'S BEST SMOKING PIPE! (Newly Developed)

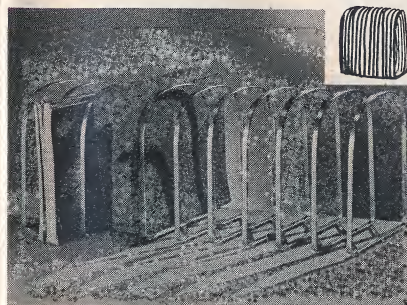

Thank our race to the moon for this heaven of a pipe! Guaranteed to please any pipe smoker. Sure, there are other pipes that look as good as The Pipe, but there the similarity stops. Look inside The Pipe, and here's what you'll find: a bowl liner entirely made of pyrolytic graphite, 99.95% pure carbon, the most heat-resistant material ever discovered, developed to withstand the incredible heat of missile re-entry. What does this mean to you? It means first up no "cake," no break-in period (in space; astronauts get one chance, and that's it). It means a smoke at least 20° cooler than any pipe you have ever smoked before. It means a pipe that will never need drying out, never go "sour." The entire bowl from top to bottom is one constant temperature—No condensation—tobacco burns right down to ash! No gooey residue. Lastly, The Pipe gives you a natural, built-in "filter." The pure carbon liner forces most of the tars and nicotine to flow off in rising smoke! And this means the nice comforting facts of 83% less tars, up to 71% less nicotine! And if this doesn't induce you to try The Pipe, friend, forget this ad. But you might tell some worried friend about it!

Mini-Pen

At home, in the office, on the road — never let another thought, another idea, another sentence get away! Now you can have the Philips automatic-loading MINI-MEMO that ends winding tapes forever. Tapes are permanently sealed and protected in snap-in cartridge (often called cassette) — truly a snap to load! Tucks away unobtrusively in coat pocket, attache case, glove compartment... or sits on bedside table or desk... acts as your 24-hour on-the-spot secretary (with never any time needed for coffee breaks!). Fully transistorized, battery-operated, it records and plays back instantly, anywhere. Gives you 20 full minutes of goofproof "note-taking," with extra tiny mail-back cassettes available at minimal cost. Use it as a dictating machine for your secretary.

Exciting features comparable to machines costing hundreds of dollars

There are many good recorders — sure! But only the MINI-MEMO, Solid-State-crafted in Europe by Philips, the largest international manufacturer of electric appliances the world over, gives you luxury Cadillac features at Volkswagen prices. Only the Philips MINI-MEMO, acclaimed as a marvel of miniaturization, is so small (just 4¼" x 2½" x 1½") that it fits with ease into the palm of your hand — so light, it weighs a mere 12 ounces. And never any danger of breaking or soiling cartridge-sealed tapes.

Consider these "big-machine" features:

"Big sound" high-fidelity reproduction on magnetic tape that may be quickly erased and re-used indefinitely, or kept as a permanent record... simple one-finger controls for record, stop, playback, automatic volume control for contrast recording level, undistorted recording and playback through quality microphone and speaker... 2-track cassette, equivalent to reels twice as large... convenient front loading... instant voltage-check switch with "beep" warning if battery voltage is inadequate... 9 volts, 7 transistors, Solid-State engineered for the kind of good hard overtime a busy executive will most assuredly ask of it.

This is not merely a home trial. Take it along on your next plane trip... to your weekly sales meeting... keep it on your car dashboard or on your desk. Then if you're not absolutely delighted... if you are not convinced that your efficiency has increased... if you're not 100% sold on MINI-MEMO as an indispensable executive assistant, return it for full refund.

Free Bonus: if we receive your order within the next 10 days, free earphone for private listening and editing!

Now . . . for men and women who want to look younger longer . . .

A new, proved electronic "time machine" that helps turn back the effects of age

At last there is something you can do about an aging face . . . something to make it look younger without plastic surgery. A wonderful new machine has been invented — the Penetronic Facial Activator — that will help you reduce or eliminate the wrinkles, crow's feet, sagging jowls and puffy bags that make a face look old.

YOUR FACE HAS MUSCLES TOO!

How can a machine do this? By stimulating the muscles of your face to exercise. That's right. Your face has muscles too. And once you're past-30, these muscles lose that strong, elastic tone that kept the face of your youth firm and attractive. As these muscles weaken, the flesh they support begins to sag. And that's how wrinkles, bags and hanging jowls begin.

Now you can reverse this aging effect with exercise. You've seen how exercise can slim down a spreading waist and bulging tummy and make a body look years younger. Well, now you can do the same for your face.

EXERCISE YOUR FACE MUSCLES ELECTRONICALLY. YOU DON'T HAVE TO DO A BIT OF WORK!

You can't do it all by yourself, of course. There are no sports or calisthenics for the face. But, through the miracle of modern electronics, you can stimulate your facial muscles to exercise all by themselves with a Penetronic Facial Activator. And this rejuvenating workout will be COMPLETELY EFFORTLESS!

Just hold your Penetronic Facial Activator over a stimulation point on your face as illustrated below, and a gentle electronic pulse causes a set of facial muscles to contract and relax rhythmically. Before you know it, you've exercised and toned up your entire face. Your muscles exercise on their own while you read, watch TV, or think of other things. IMPORTANT: The Penetronic is not a vibrator, not a massager, not a heat applicator. It is an exerciser. It does not shake your muscles to make them move. It activates them into moving on their own. This is real exercise. It can help bring back youthful facial contours.

GUARANTEED TO MAKE YOU LOOK YOUNGER—OR YOUR MONEY BACK.

This won't happen overnight, of course. Muscle tissue rebuilds so fast and no faster. It will take about 90 days to get significant benefits from Penetronic treatment — six months for full benefits. But you should see some improvement after just one month — we're confident of that.

In fact, if you don't see a younger-looking face in your mirror after 30 days of daily use, return your Penetronic Facial Activator and we will refund every penny you've paid!

We can make this guarantee because we've seen how daily Penetronic exercise stimulates facial circulation and re-builds sagging muscles that have allowed wrinkles to form in the first place. And we've seen — once full benefits are achieved — how intermittent use thereafter helps facial muscles maintain their newfound strength and tone so that you don't lose your new youthful look.

HOW DAILY PENETRONIC TREATMENT FIRMS AND TONES KEY AGE-REVEALING AREAS

Two minutes here helps work off double chin and sagging crescent beneath lower lip.

Tighten up the muscles at the corner of your mouth, below your cheek, and above your jaw.

Exercise and strengthen these muscles, and jowliness will begin to disappear.

Back here is where Penetronic helps you work away the crow's feet around your eyes.

Two minutes here works on the rest of the eye area, including those puffy-looking bags.

Here's where you strengthen the sagging muscles that cause tell-tale creases in the neck.

A SOPHISTICATED ELECTRONIC DEVICE FOR EASY HOME USE.

There are other facial activators, but you have to go to a posh beauty salon to use them. These are huge console units requiring the attentions of a skilled operator.

In the Penetronic Activator, a whole console of electronic functions has been compressed down to cigarette-pack size through the magic of miniaturization, so that you can own and run it yourself. Its circuitry was inspired by missile and space vehicle designs.

The total cost for this electronics wizardry is less than one or two visits to one of those posh salons — just \$29.98, the world's biggest bargain, we believe.

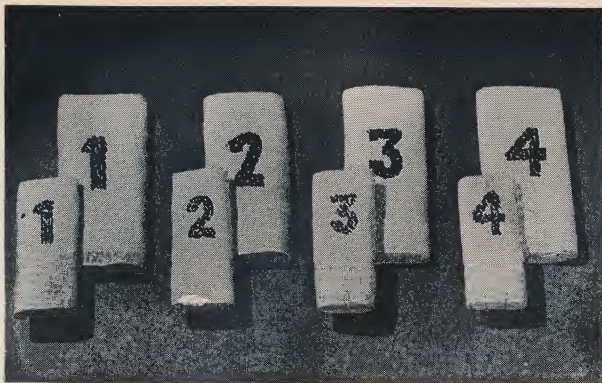

But nothing's a bargain unless you get exactly what you want. The Penetronic Facial Activator helps you get a more youthful appearance. If that's what you want (instead of cover-up for the way you look now), isn't it worth \$29.98? We think so.

But if you think we're wrong after your 30-day trial we'll return every cent you've paid.

There's no risk, you see. And you should start to see results in 30 days.

GET THAT WEIGHT OFF QUICKLY!

You can lose 5, 10, 15 or more pounds the first week! Dr. Irwin Stillman's Quick Weight Loss Diet debunks the myth that the only way to lose weight is to lose it gradually. He proves with facts not theory that rapid weight loss is the most effective reducing method.

IN JUST ONE WEEK you can see the weight on the scale drop rapidly, and the fat melt away. Dr. Stillman's records show that patients averaged a loss of 6 to 7 pounds in the first 3 days on the Quick Weight Loss Diet.

IN JUST ONE WEEK you can get rid of the pounds suddenly gained from too much "good living." Sudden slimming is yours with the Quick Weight Loss Diet.

IN JUST ONE WEEK you will be delighted and impressed by your decided drop in weight. If you have failed with other diets, the big loss of weight the first week from the Quick Weight Loss Diet will give you the confidence you need to continue.

INSTANT ACTION			
DAY-BY-DAY CASE HISTORY OF MRS. E. R.'S FIRST WEEK ON THE DOCTOR'S QUICK WEIGHT LOSS DIET.			
180 LBS. MON.	175 LBS. WED.	171 LBS. FRI.	168 LBS. SUN.

Dr. Irwin Stillman developed the QUICK WEIGHT LOSS DIET in the course of his 45 years of medical practice. The diet has been tested and proved by over 10,000 patients. It works! His first rule is: GET THAT WEIGHT OFF QUICKLY! The diet helps you do that by burning up 275 extra calories of body fat a day! And that is a secret of its success. This diet requires no will power after the first week. As soon as you see that you've lost 5, 10, or even 15 pounds in just your first week, you'll have all the encouragement you need.

EAT AS MUCH AS YOU WANT The amazing thing about the Quick Weight Loss Diet is that you get all the nutrition you need...you do not count calories...and you eat as much as you want! Actually, by sticking to permitted foods, you put a "brake" on your appetite so that—without bothering to count calories—you eat far less. But should you suddenly feel the urge for a midnight snack, go ahead. You don't have to put up with hunger pangs. Nor do you have to feel guilty if you eat "a little bit extra." With permitted foods, you may eat as much as you want.

NOT JUST ONE DIET...BUT 60! In addition to the basic QUICK WEIGHT LOSS DIET, there are 60 different quick-reducing diets that cover an array of emotional and medical needs. For example, there's an Anti-Acne Diet, Anti-Allergy Diet, 6-Meal-a-Day Nibbler Diet, Bread-Cheese-Wine Diet, High Fat/High Protein Diet, etc. And every one is a quick-reducing diet that slims you down.

HELPS PEOPLE WHO COULDN'T REDUCE BEFORE Hundreds of Dr. Stillman's patients were "veteran dieters"—people who have tried to lose many times before, and failed. Here are a few case histories: MRS. F. G.—Five years ago she weighed 194 and was only 5'1". She had tried to reduce 14 times before without success, losing a few pounds at first, then gaining them back. With the QUICK WEIGHT LOSS DIET, she lost over 10 pounds the first week, was so encouraged she continued eagerly. In a year she got to her desired weight of 105. MR. D. E.—He was 5'11", weighed 243 pounds and said he felt like an old man. He was only 32. His blood pressure was a dangerous 210/135. In 14 weeks he went down to 183 and his blood pressure dropped to a safer 150/100. He says he feels like a "new man." After holding this interim weight for a while he will lose about 20 pounds more, then stabilize at his ideal weight of 165.

WHY THE DOCTOR'S QUICK WEIGHT LOSS DIET WORKS No matter how many times you've tried other diets and failed, this program will work. Everything you need to know is in the book.

- How to figure your ideal weight.
- What foods will start you losing at the amazing rate of 5, 10 or even 15 pounds a week.
- Dozens of hearty meat, fish, egg and cheese dishes which you may eat to your heart's content.

kept him slim and vigorous ever since. Dr. Stillman is a Diplomate in Internal Medicine, has been Clinical Instructor in Medicine at LONG ISLAND COLLEGE HOSPITAL, and is a fellow in both the American Geriatric College and the American College of Angiology.

- No Cords
- No Batteries
- Lightweight
- Easy To Use
- No Costly Fuel

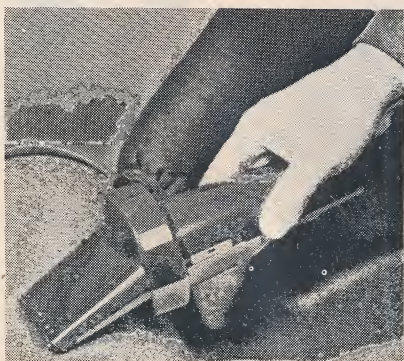

Once you start using this Flame Gun, you'll wonder how you ever put up with all those back-breaking, time-consuming chores before. It's the fast way to clear away weeds, stray grass and other growths that pop-up between flagstones, along cement walks, on the borders of shrubs and lawns, etc. And it is the ideal way to destroy ant hills, unwanted insect nests and the like.

SPECIAL USE FOR THE SERIOUS GARDENER. Use this Flame Gun to sterilize the soil. After preparing small seed beds, lightly flame the soil to kill weed seeds and harmful spores. Then plant your seeds.

DON'T PUT IT AWAY FOR THE WINTER. Unlike other garden tools, your Flame Gun will be useful all year 'round. Ideal for removing icy patches from walks or driveways, creating a drainage path for melting snow, freeing an ice-blocked door sill... and for releasing your car from the "prison" created by the local snow plow. Melts snow faster than you can shovel. Less than two pints of kerosene provide 30 minutes of steady energetic flame. Simple wing-nut opens and closes valve and adjusts flame.
